The Everglades is of utmost importance to we humans. It is even more important to our health and our ways of living.

Student will:

1) visit the Everglades.
2) write a research paper on the importance of the Everglades in correlation to health issues we face or may face in the future including but not limited to:
   a. our water quality,
   b. mercury in fish we eat,
   c. how the whole ecosystem relates to our health... for instance - can a trip to the Everglades help a patient who is suffering from depression, stress or from anxiety?
